Dear Students,

Our district leadership is considering offering AI Summer School, an exciting opportunity for students like you to learn Artificial Intelligence (AI) with instructors from Stanford and MIT. To indicate your interest and what schedule works for you, [fill out this Google form](#). For more context, please read further.

Why learning about AI?

AI is rapidly changing the world we live in, and the importance of understanding its impact and potential cannot be overstated. For example, the most recent advancement of ChatGPT represents a major step forward in our ability to understand and interact with technology, and has the potential to revolutionize the way we live and work in a myriad of ways. (A fun fact - this paragraph is 95% AI generated.)

What is AI Summer School?

AI Summer School is an exciting opportunity for students like you to get hands-on experience with the latest AI technologies and gain a deeper understanding of its potential. With the guidance of top instructors from Stanford and MIT, you'll learn how to create real AI products that people can use and make a real impact on the world. Furthermore, top students potentially can get internship opportunities at top companies.

AI Summer School is brought to you by a partnership between our district and AI Camp (www.ai-camp.org), the leading AI education startup from Silicon Valley.

Imagine spending your summer working on innovative AI projects and learning from experts in the field. This is your chance to dive into the exciting world of AI, gain valuable skills and knowledge, and create a rich portfolio that will set you apart.

There will be no cost associated with attending AI Summer School. You do not need to have coding experience to join. The only technology equipment you will need is a computer that has internet, Zoom and a browser. This is an online camp, where you either learn at home or at your school during the summer.

Don't miss out on this incredible opportunity to advance your skills and make a difference with AI. [Fill your interests and availability information now](#). The camp will run from July 10 to July 28, Monday through Thursday at the high school. Fridays you will work virtually

from home. Please select the “Other” option in the survey for availability. We can't wait to see what you'll create at AI Summer School!
